Scientia Professor Gavin Andrews

Gavin Andrews AO, MD, is Professor of Psychiatry at UNSW at St Vincent's Hospital, Sydney. He is on the ISI Most Highly Cited list for psychology and psychiatry with more than 30,000 citations to his work. His research interests began with stuttering, extended to depression, epidemiology, treatment, classification, cost effectiveness, and now the internet treatment of internalising disorders.

Scientia Professor Henry Brodaty

Henry Brodaty is an internationally recognised authority on ageing and dementia. He is Scientia Professor of Ageing and Mental Health, UNSW Australia; Co-Director, Centre for Healthy Brain Ageing (ChEBA); Director of Aged Care Psychiatry and Head of the Memory Disorders Clinic, Prince of Wales Hospital (POWH); Director of the Primary Dementia Collaborative Research Centre and has served on several NSW and Commonwealth committees related to ageing and dementia. He is the past chairman of Alzheimer's Disease International, and past president of Alzheimer's Australia and Alzheimer's Australia (NSW).

Professor Colleen Loo

Colleen Loo is a Professor based in the School of Psychiatry, UNSW Australia. She is a psychiatrist, researcher and academic, with a clinical base at St George Hospital and a research base at the Black Dog Institute (Sydney). She is internationally recognised for her research in Electroconvulsive Therapy and novel physical treatments, particularly Transcranial Magnetic Stimulation and transcranial Direct Current Stimulation.

Professor Sharon Naismith

Sharon Naismith is the Leonard Ullman Chair in Psychology at the University of Sydney. She is a Clinical Neuropsychologist and NHMRC Career Development Fellow. Her work in the area of cognitive and imaging correlates of late-life depression spans almost two decades and she now focuses on using neurobiological strategies for depression prevention, the overlap between mild cognitive impairment and depression and cognitive remediation techniques.

Scientia Professor Gordon Parker

Gordon Parker is Scientia Professor of Psychiatry, UNSW Australia, and was formerly the Executive Director of the Black Dog Institute. His research priorities weight modelling and managing options for the mood disorders, particularly melancholia and the bipolar disorders.

Associate Professor Carmelle Peisah

Carmelle Peisah is an old age psychiatrist and conjoint Associate Professor at UNSW Australia. She is the Clinical Director, Specialist Mental Health Services for Older People (SMHSOP) in the Northern Sydney Local Health District. She is also President of Capacity Australia, a not-for-profit charity that promotes autonomy of decision-making.

Professor Charles F. Reynolds III

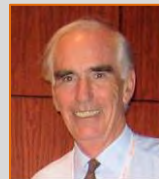

Charles F. Reynolds III MD is the UPMC Endowed Professor in Geriatric Psychiatry at the University of Pittsburgh. He directs the NIMH sponsored Center of Excellence in the Prevention and Treatment of Late Life Mood Disorders and the UPMC/Pitt Aging Institute (www.aging.upmc.com).

Ms Anne Marie Sarandrea

Anne Marie Sarandrea, Clinical Psychologist has been working with the Department of Aged Care Psychiatry, POWH since 2011. Her roles include providing psychological assessment and intervention for older adults with mental health problems, assessing cognitive changes, and behavioural assessment and intervention for individuals with behavioural and psychological symptoms of dementia who are residing in aged care facilities or in their homes. She has an interest in depression and anxiety in older persons, and maximising participation in later life for people with and without dementia.

Professor John Snowdon

John Snowdon is an old age psychiatrist based at Concord Hospital and with the Camperdown SMHOPS team, and is a Clinical Professor (Sydney Medical School). He has researched and/or written about late life depression, suicide, delusional disorder and squalor/hoarding. He was the foundation chair of the RANZCP's FPOA.

Ms Julie Strukovski

Julie has 37 years' experience as a Registered Nurse specialising in Aged Care and SMHSOP, where she is currently Program Manager. She has qualifications in General Nursing, Mental Health Nursing, Gerontology and Behavioural Management. She worked for 8 years as the manager of a number of CALD specific Aged Care Facilities in which quality management and assessment of systems and processes was an integral function of the role. Julie has been instrumental in developing the Behavioural Assessment Management Service across NS LHD.

Dr Chanaka Wijeratne

Chanaka Wijeratne is a Senior Specialist in the Academic Department of Aged Care Psychiatry at Prince of Wales Hospital, where he specialises in mood disorders and neurodegenerative diseases, and has a longstanding interest in ECT. He is a past recipient of an Australian Rotary Health grant to research bipolar disorder in older people.

Dr Viviana Wuthrich

Viviana Wuthrich is a Clinical Psychologist and Senior Lecturer in the Centre for Emotional Health, Department of Psychology, Macquarie University. Her research is on the underlying mechanisms of, and treatment of, anxiety and depression in older adults, and children and adolescents, including the development and evaluation of psychosocial treatments.
